How to use this plan: No breakfast, exactly how you already run your day. Your coffee is counted, 2 pods with hi-lo milk and caramel, one a day. Pick 1 option from lunch, snack, dinner and dessert every day, dinner is deliberately your biggest meal. One rule holds the plan together: everything with a number gets weighed, meat raw before it cooks, shared pots and trays after it, the free veg never.

How to weigh: Weigh everything raw, before it hits the pan. Meat raw, pasta and oats dry, potatoes and vegetables raw, frozen food straight from the bag. Ready-to-eat items get weighed as they come, microwave rice straight from the pouch, tins drained first. Anything in a labelled single serve (pots, pouches, bars) needs no scales at all. Fresh fruit, salad and vegetables never need the scales, pieces and handfuls do the job. Spoon measures are level, not heaped. Batch cooking? Weigh the full amount raw, cook it, then weigh the cooked total and split it evenly into your portions.

COACH NOTES

- A Coke Zero or Pepsi Max is on the plan, 1 a day whenever you feel like it, zero calories, it kills the sweet urge for free.
- Sweet tooth at night: the dessert slot replaces the handfuls of lollies, and if sleep is the goal, have it earlier in the evening rather than last thing before bed.
- Social nights: max 5 Carlton Dry, one night a week, about 550 calories. On that night the beers take the place of your snack and dessert, the meals never move.
- Your dinners are the same three Sian already cooks, your cards just carry your portions. One cook, two plans.
- Landing home anywhere from 6 to 10 is fine, your plate waits, every dinner reheats.
- Biltong is best 2 to 3 times a week, rotate the three snack cards.
- Weigh in every morning, fasted, straight out of bed, before the coffee.
- If you are genuinely hungry between meals all week, tell me, the plan gets adjusted, that is my job.
