Fat loss & muscle gain	~2,395-2,500 kcal	~170-200g	~215-280g	~55-90g

How to use this plan: Three meals, no snacks, the way you asked: breakfast, lunch and dinner, with dinner the biggest. Pick 1 option per meal, any combination lands on your targets. Lunch and dinner are the same meals as Dolly's plan, cooked once, with your plate weighed to your card.

How to weigh: Weigh everything raw, before it hits the pan. Meat raw, pasta and oats dry, potatoes and vegetables raw, frozen food straight from the bag. Ready-to-eat items get weighed as they come, microwave rice straight from the pouch, tins drained first. Anything in a labelled single serve (pots, pouches, bars) needs no scales at all. Fresh fruit, salad and vegetables never need the scales, pieces and handfuls do the job. Spoon measures are level, not heaped. Batch cooking? Weigh the full amount raw, cook it, then weigh the cooked total and split it evenly into your portions.

COACH NOTES

- Your lunches and dinners match Dolly's cards, only the amounts differ. Every shared pan gets weighed onto plates. Your plate on the night: 600g of the finished chicken fried rice, 670g of the finished creamy pasta, 205g of cooked taco mince over your 6 tortillas, 190g of cooked mince on your sweet potato bowl. Shepherd's pie is on the card. Burgers, bagels and pizzas are built one each, straight off your card.
- Pepsi Max, sugar free energy drinks and water are all zero calories, they stay as they are.
- Creatine: 10g every day, any time of day, training day or not, that is how it works.
- Smoothie mornings: load the blender jug the night before and keep it in the fridge, blend and go in the morning.
- No fish and no pickles anywhere on this plan.
- If you are genuinely hungry between meals all week, tell me, the plan gets adjusted, that is my job.

DAILY TARGETS

BREAKFAST	LUNCH	DINNER	WATER
~590-615 kcal	~785-815 kcal	~1,020-1,070 kcal	3L a day

BREAKFAST

Before work, pick any option
