## CLIENT GOALS

| OBJECTIVE | CALORIES | PROTEIN | CARBOHYDRATES | FAT |
|---|---|---|---|---|
| Maintenance & performance | ~2,380-2,590 kcal | ~185-210g | ~180-290g | ~55-85g |

How to use this plan: Three meals, no snacks, the way you asked: breakfast, lunch and dinner, dinner the biggest. Pick 1 option per meal, any combination lands on your targets. Lunch and dinner cook once for you and Dolly, your plate weighed to your card.

How to weigh: Weigh everything raw, before it hits the pan. Meat raw, pasta and oats dry, potatoes and vegetables raw, frozen food straight from the bag. Ready-to-eat items get weighed as they come, microwave rice straight from the pouch, tins drained first. Anything in a labelled single serve (pots, pouches, bars) needs no scales at all. Fresh fruit, salad and vegetables never need the scales, pieces and handfuls do the job. Spoon measures are level, not heaped. Batch cooking? Weigh the full amount raw, cook it, then weigh the cooked total and split it evenly into your portions.

## COACH NOTES

- The body fat job is done. From here we hold your condition and carb you back up, for energy, your sessions and that fuller look.
- Training days only: 2 LCM Kaleidos bars 30 to 45 minutes before your session. Rest days skip them, nothing else changes.
- More carbs before training can nudge the scale a few hundred grams for a couple of days. Water, not fat.
- Creatine: 10g every day, any time, no days off.
- Lunch lands about an hour before your afternoon session. That is your pre training meal.
- Pepsi Max and your sugar free energy drinks stay free, 1 to 2 a day.
- No meat and rice plates anywhere. The only rice on the plan is inside your burrito.
- 13,000 steps a day, same number as Dolly. Steady beats 27k one day and 3k the next.
- Weigh in and steps form every night, back to back.

## DAILY TARGETS

| BREAKFAST | LUNCH | PRE-WORKOUT | DINNER | STEPS | WATER |
|---|---|---|---|---|---|
| ~590-600 kcal | ~790-815 kcal | ~165 kcal | ~1,000-1,010 kcal | 13,000 a day | 3L a day |
